## THERAPEUTIC USE EXEMPTION PROCESS – NADO MOLDOVA

---

---

### 1. WHAT IS A THERAPEUTIC USE EXEMPTION (TUE)?

---

Athletes may have illnesses or conditions that require them to take medications or undergo procedures. If the medication or method an athlete is required to use to treat an illness or condition is prohibited as per the World Anti-Doping Agency's (WADA) [Prohibited List](#), a TUE may give that athlete the authorization to use that substance or method while competing without invoking an anti-doping rule violation (ADRV) and applicable sanction. Applications for TUEs are evaluated by a panel of physicians the TUE Committee (TUEC).

NADO TUEs are only valid for national-level Competition and Out-of-Competition Testing.

---

### 2. WHAT ARE THE CRITERIA FOR GRANTING A TUE?

---

All of the four following criteria must be met (for more details, please refer to the [WADA International Standard for Therapeutic Use Exemptions \(ISTUE\) Article 4.2](#)):

- The athlete has a clear diagnosed medical condition, which requires treatment using a prohibited substance or method;
- The therapeutic use of the substance will not, on the balance of probabilities, produce significant enhancement of performance beyond the athlete's normal state of health;
- The prohibited substance or method is an indicated treatment for the medical condition, and there is no reasonable permitted therapeutic alternative;
- The necessity to use that substance or method is not the consequence of the prior use (without a TUE), of a substance or method which was prohibited at the time of use.

---

### 3. WHO SHOULD APPLY FOR A TUE? WHERE AND WHEN TO APPLY?

---

**NADO Moldova** has delegated responsibility for all TUE applications to the International Testing Agency (ITA). This means that the ITA is now fully responsible for the TUE application process for all national-level athletes that fall under national jurisdiction.

Athletes who are subject to anti-doping rules would need a TUE to take a prohibited substance or use a prohibited method. You should verify with **NADO Moldova** to know to whom you need to apply and if you can apply retroactively.

First, check if the required medication or method you intend to take or use is prohibited as per the WADA Prohibited List.

You may also use a 'check your medication' online tool like globalDRO (<https://globaldro.com>).

You have a responsibility to inform your physician(s) that you are an Athlete bound to anti-doping rules. You and your physician(s) should check the [Prohibited List](#) for whatever substance/method you are prescribed. If the substance/method is prohibited, discuss non-prohibited alternatives, if there are none, apply for a TUE. Remember athletes have the ultimate responsibility. Contact the ITA if you are having difficulties in assessing the status of a substance.

Then, verify below your status, to determine your competition level and TUE application requirements:

### **National Level Athlete Definition**

(a) Athletes who are members or license-holders of any National Federation in the Republic of Moldova, or of any member or affiliate organization of any National Federation in the Republic of Moldova (including any clubs, teams, associations, or leagues);

(b) Athletes who participate in such capacity in Events, Competitions, and other activities organized, convened, authorized or recognized by any National Federation in the Republic of Moldova, or by any member or affiliate organization of any National Federation in the Republic of Moldova (including any clubs, teams, associations or leagues), wherever held;

(c) Athletes who, by virtue of an accreditation, a license or other contractual arrangement, or otherwise, is subject to the authority of any National Federation in the Republic of Moldova, or of any member or affiliate organization of any National Federation in the Republic of Moldova (including any clubs, teams, associations or leagues), for purposes of anti-doping;

(d) Athletes who participate in any capacity in any activity organized, held, convened or authorized by the organizer of a National Event or of a national league that is not affiliated with a National Federation.

However, if any such Athletes are classified by their respective International Federations as International-Level Athletes then they shall be considered to be International-Level Athletes (and not National-Level Athletes) for purposes of these Anti-Doping Rules.

**If it is determined that you are a National-Level Athlete** you must apply in advance, as soon as the need arises, unless there are emergency or exceptional circumstances.

For substances prohibited in-competition only, you should apply for a TUE at least 30 days before your next competition. Please refer to the section "How to apply to NADO Moldova for a TUE?" below.

**If your level is lower than the "National-Level" as defined above**, you are entitled to apply for a retroactive TUE after being tested by **NADO Moldova** or any other Anti-Doping Organization (ADO).

### **Important note:**

A TUE granted by **NADO Moldova** is only valid at the national level. If you are, or become an International-Level Athlete, or compete at Major Games, that TUE will not be valid unless it is recognized by the relevant International Federation (IF) or Major Event Organization (MEO). It is your responsibility to check if your national TUE is automatically recognized by such IF or MEO.

NADO Moldova can assist you in the determination of your level and TUE application requirements, and, should the need occur, assist you in presenting your national TUE to an IF or MEO for recognition. Please contact [tue@ita.sport](mailto:tue@ita.sport) or [officeagency@anad.gov.md](mailto:officeagency@anad.gov.md) for such enquiries.

---

## 4.CAN I GET A RETROACTIVE TUE?

---

You may only apply retroactively for a TUE to NADO Moldova if:

- **You required emergency or urgent treatment of a medical condition.**
- **There was insufficient time, opportunity or other exceptional circumstances that prevented you from submitting the TUE application, or having it evaluated, before getting tested.**
- **As per our anti-doping rules you were not permitted or required to apply in advance for a TUE.**
- **You are a lower level athlete who is not under the jurisdiction of an International Federation or National Anti-Doping Organization and were tested.**
- **You tested positive after using a substance Out-of-Competition that was only prohibited In-Competition (for example glucocorticoids).**

**In rare and exceptional circumstances and notwithstanding any other provision in the ISTUE**, you may apply for and be granted retroactive approval for a therapeutic use of a prohibited substance or method, if considering the purpose of the Code, it would be manifestly unfair not to grant a retroactive TUE.

This unique retroactive TUE will only be granted with the prior approval of WADA (and WADA may in its absolute discretion agree with or reject NADO Moldova's decision).

### **Important note:**

Using a prohibited substance or method without a TUE could result in an Anti-Doping Rule Violation.

In case an application for a retroactive TUE is necessary following sample collection, you are strongly advised to have a medical file prepared and ready to submit for evaluation.

---

## 5.HOW TO APPLY TO NADO Moldova FOR A TUE?

---

**NADO Moldova** encourages you to submit TUE applications via ADAMS, together with the required medical information. If you do not have an ADAMS account, you can use the online submission form found here: [Therapeutic Use Exemption Submission \(microsoft.com\)](https://ita.sport/TUE)

Please download the [TUE Application Form](https://ita.sport/TUE) (found on <https://ita.sport/TUE>), duly complete it and sign it.

Your TUE application must be submitted in legible capital letters or typing **and in ENGLISH**.

In addition to your TUE form, the medical file must include:

- **A comprehensive medical history, including documentation from the original diagnosing physician(s) (where possible);**
- **The results of all examinations, laboratory investigations and imaging studies relevant to the application.**

All documents must be translated in English.

Any costs incurred by the Athlete in making the TUE application and in supplementing it as required by the TUEC are the responsibility of the Athlete.

Any TUE application that is not complete or legible will not be dealt with and will be returned for completion and re-submission.

To assist you and your doctor in providing the correct medical documentation, we suggest consulting the WADA's [Checklists for TUE applications](#) for guidance and support, and [Medical Information to Support the Decisions of TUECs](#) for guidance on specific common medical conditions, treatments, substances, etc.

Keep a complete copy of the TUE application form and all medical information submitted in support of your application, and proof that it has been sent.

---

## **6.WHAT HAPPENS AT MAJOR EVENTS?**

---

A Major Event Organization (MEO) requires athletes to apply for the recognition of their TUE if they wish to use a prohibited substance or method in connection with the Event.

If you have a TUE granted by NADO Moldova and you will be competing at a Major Event e.g., the Olympic Games or the World Games, you should contact the MEO for information on their recognition process.

---

## **7.WHEN WILL I RECEIVE A DECISION ON MY TUE APPLICATION [OR REQUEST FOR RECOGNITION]?**

---

The ITA's TUEC must render a decision as soon as possible, and usually within 21 days from the date of receipt of the complete TUE application, including the required medical information.

---

## **8.WHAT IF I NEED TO RENEW MY TUE?**

---

Each TUE has a specific duration, at the end of which it expires automatically. Should you need to continue to use the prohibited substance or method, it is your responsibility to submit a new application for a TUE with updated medical information ahead of the expiry date, so that there is sufficient time for a decision to be made prior to the expiry of the current TUE.

### **Important note:**

The presence (following sample collection), use, possession or administration of the prohibited substance or method shall be consistent with the terms of your TUE. Therefore, if you require a materially different dosage, frequency, route or duration of administration, you should contact **the ITA**, as you may be required to apply for a new TUE. Some substances and dosages, e.g. insulin, are often modified during treatment and these possible fluctuations should be mentioned by the treating physician in the TUE application and would usually be accepted by the ADO TUEC.

---

## **9.WHAT IF MY NADO MOLDOVA TUE APPLICATION IS DENIED?**

---

A decision to deny a TUE application includes a written explanation of the reason(s) for the denial. If it is not clear to you, please contact the ITA to understand exactly why the TUE was denied. Sometimes, there may be a critical piece of information, diagnostic test, laboratory results missing, etc. In which case, you should re-apply to us. Otherwise, you may appeal the denial decision as follows:

If NADO Moldova denies an application for a TUE, the Athlete may appeal exclusively to the national-level appeal body described in Article 13.2.2 of the anti-doping rules ([insert link](#))

---

## **10.WHAT IF MY NADO TUE IS NOT RECOGNIZED BY MY INTERNATIONAL FEDERATION?**

---

You and/or your NADO have 21 days from the date of decision to refer the matter to WADA for review. The email address to enquire and/or send the request for review is: [medical@wada-ama.org](mailto:medical@wada-ama.org). Alternatively, you may send to:

WADA Medical Department  
World Anti-Doping Agency  
Stock Exchange Tower  
800 Place Victoria (Suite 1700)  
P.O. Box 120  
Montreal (Quebec) H4Z 1B7  
Canada

The same information that was provided to your NADO should be submitted to WADA. Please use a secure on-line method unless sending by registered mail.

Pending WADA's decision, your NADO TUE remains valid for national-level competition and out-of-competition testing only.

If the matter is not referred to WADA for review, your NADO must determine whether the original TUE that was granted should remain valid for national-level Competition and Out-of-Competition Testing.

---

## **11.WILL MY MEDICAL INFORMATION BE TREATED IN A CONFIDENTIAL MANNER?**

---

All the information contained in a TUE application, including the supporting medical information and any other information related to the evaluation of your TUE request is kept strictly confidential and treated in accordance

with the Athlete's Declaration contained in the ADAMS TUE and in the TUE Application Form which can be found [here](#). All members of the TUEC and any other authorized recipients of your TUE request and related information (as described in the Athlete's Declaration) are subject to a professional or contractual confidentiality obligation.

Please review the terms of the Athlete's Declaration carefully. In particular, note that should you wish to revoke the right of the **ITA's** TUEC to obtain the information related to your TUE in accordance with the Athlete's Declaration, your TUE application will be deemed withdrawn without approval [or recognition] being granted.

Your TUE request-related information will be retained by **NADO Moldova, the ITA** and any other authorized recipients for no longer than necessary for the purposes stated in the Athlete's Declaration, in accordance with the International Standard for the Protection of Privacy and Personal Information.

---

## 12. CONTACT INFORMATION

---

For any further information and questions in relation to personal information practices, please contact the ITA at [privacy@ita.sport](mailto:privacy@ita.sport) or NADO Moldova ([insert contact email](#)).

If you have a doubt as regards to which organization you should apply for a TUE, or as to the recognition process, or any other question about TUEs, please contact: [tue@ita.sport](mailto:tue@ita.sport).
